

**HKDSE Mathematics in Action (Extended Part)**  
**Module 2 Algebra and Calculus Volume 1**  
**Amendment List**

Page	Original	Amendment
3.8	Example 3.3 Find values of trigonometric ratios	Example 3.3 Find values of trigonometric <u>functions</u>
3.10	Example 3.4 Find values of trigonometric ratios	Example 3.4 Find values of trigonometric <u>functions</u>
3.19	In each of the following figures, find the values of the six trigonometric ratios of $\theta$ . (1 – 4)	In each of the following figures, find the values of the six trigonometric <u>functions</u> of $\theta$ . (1 – 4)
3.53	<b>3.</b> In each of the following figures, find the values of the six trigonometric ratios of $\theta$ .	<b>3.</b> In each of the following figures, find the values of the six trigonometric <u>functions</u> of $\theta$ .
3.54	<b>16.</b> Suppose ... the following trigonometric ratios without using a calculator.	<b>16.</b> Suppose ... the following trigonometric <u>functions</u> without using a calculator.
